New Elan E3 to be visited in Lelystad. Double steeringwheels, twin rudders, Volvo penta 19HP engine & teak on cockpit seats

TCC 2018 sistership: 0.985

Ready to sail!

General

PERFORMANCE
With a broad stern, chined hull, twin-rudder system and a spacious cockpit layout, all designed for the best sailing efficiency, the Elan E3 emulates the feel of a larger yacht. Simply put, the yacht delivers exuberant performance with such ease that you will want to sail harder; such is the level of control delivered by the E3. Its T-bulb keel lowers the ballast centre of gravity significantly, allowing a reduction of displacement for a given level of stability. Combined with VAIL (vacuum-assisted infusion lamination) bulkheads and a powerful hull structure, the E3 is a tight, strong and safe boat.

COMFORT
The Elan E3 offers an unprecedented level of comfort, ensuring a smooth crossover from racing to cruising with friends or family. The Elan E3's bright and airy interior does not compromise when it comes to cruising leisure and creates the feel of a much larger boat. A big, social saloon area with natural oak veneer furniture and standing headroom, comfortable cabins and a fully-equipped galley and head makes every minute on this yacht pleasurable, especially as it will probably be among the first back at the mooring.

CERTIFICATION
The ELAN E3 is delivered with a CE certificate and meets the requirements of European directive 2013//53//EU for recreational craft. The CE class A category certificate (unlimited Ocean voyages) is issued by Germanischer Lloyd.

HULL
Hull is laminated with VAIL - Vacuum Assisted Infusion Lamination technology, to considerably improve strength, mechanical and chemical properties of the hull, SVG gelcoat for optimal chemical resistance against osmosis and mirror finish, sandwich construction using multi-directional Fibreglass, structural closed cells foam core and single skin on loaded areas, vinylester skin coat and Isophtalic polyester resin are used for high quality product, powerful inner structure distributes all loads from the keel and rig effectively with a minimum flexing of the hull.

KEEL
2,15m draft performance cast iron T shape keel

Rigging

- Selden tapered keel stepped performance aluminium anodised fractional mast profile with 2 sets of aft swept spreaders
- Selden aluminium single line reefing boom with rigid vang
- Genoa furling system Selden Furlex 200TD

Viewing Arrangements

Due to the corona crisis and the varying locations of our yachts, we offer viewings of yachts for sale anywhere in the world from the comfort of your own home. From live walk-throughs using tools such as WhatsApp, Facetime or Zoom you can literally zoom in to every corner and check out every detail of the decklayout, interior configuration, rig and the engine room.
During these guided tours, together with one of our brokers there is the opportunity to ask our brokers all questions you have as when you make a real-life visit.

Together with our specifications, this package will give you a realistic impression of the volume, layout and condition of the yacht and equipment.

After an online guided tour together with the package of information at hand, you can decide if you like to see the yacht, or wish to send a surveyor to check the yacht.We hope to see you soon online or in real life for a visit on the yacht of your dreams.
